## PROPOSALS.

Sealed proposals are invited for the erection of a new laundry building for the Western Kentucky Asylum for Insane at Hopkinsville, Ky., to be accompanied by a certified check five per cent. of bid, to be delivered to Dr. Milton Board, Supt., at the asylum on or before noon Aug. 10th, 1904. Plans and specifications are at the office of Kenneth McDonald and J. F. Shebllessy, Architects, Louisville, Ky., and at the office of Supt. at Hopkinsville, Ky. Right is reserved to reject any or all bids or to waive formalities.

July 18, 1904.

## PROPOSALS.

Sealed proposals are invited for the following work in connection with the two new wings for the Western Kentucky Asylum for Insane, at Hopkinsville, Ky.: The erection of a chimney, the erection of a boiler house and the erection of boilers and heating and ventilating apparatus. Work will be let in separate contracts for each of these three items. Bids will be accompanied by certified check to amount of 5 per cent of bid and will be delivered to Dr. Milton Board, Supt., at the asylum on or before noon Aug. 10th, 1904. Plans and specifications can be seen at the Supt.'s office or at the office of Kenneth McDonald and J. F. Shebllessy, Louisville, Ky. Right to reject any or all bids or to waive formalities.

## AMPLE PROVISION.

**Live Stock Buildings at the  
World's Fair.**

Ample provision is made for the displays of live stock at the World's Fair by a well located site, situated on the highest point of the grounds and adjoining one of the main entrances. The floor space of all the Exposition palaces covers less than 120 acres, while the several live stock shows will occupy about 200 acres, or 60 acres more than all the balance of the World's Fair exhibits under roof. The extent and value of the live stock show of the exposition is only partially understood by a very limited number of students of animal husbandry. Some idea may be gained from a brief summary of the provisions made for buildings.

### Live Stock Forum.

The largest building on the site has been designated the Live Stock Forum, which is "to accommodate the court by which the comparative merits of the various competitive exhibits of live stock are to be judged, and the awards announced to the public in attendance."

The live stock forum is located a short distance west of University Boulevard and with an adjoining station for the intramural road. The ground plan is elliptical and encloses an area of 250x500 feet. It is the largest amphitheater ever provided for displays of live stock. Only that portion of the arena given over to seats is roofed over, and the ring will be covered with sawdust or tanbark.

This is the only structure provided for the live stock department that can be given any notable degree of architectural effect commensurate with exposition construction. The building is given pronounced elevation effect by the use of upright columns in the exterior wall construction.

The forum is very substantially constructed and provided with eight tiers of raised amphitheater seats encircling the arena. The arena is surrounded with a six-foot promenade on a level with the ground floor. A substantial partition or fence separates the arena from the lower promenade. The upper promenade is within one foot of the upper tier of seats of the amphitheater and twelve feet in width.

Two main entrances to the forum are provided for visitors, one located at the center of the east side and one at the center of the north end of the forum. There are twelve minor entrances for visitors, with suitable stairs from the lower to the upper promenade, on each side of the four main entrances and on one side of the twelve minor entrances.

The outside of the forum is enclosed and the amphitheater seats are amply protected. Provision is made for both day and evening exhibitions.

### The Stock Barns.

The barns provided for the World's Fair exhibits of live stock are mainly 200 feet long by 46 feet wide, and provided for 3000 stalls 5 feet wide and 10 feet deep, and 350 box stalls 10 x 10 feet, five at each end of and on opposite sides of each barn. They are well ventilated, with good day lighting by windows, and electric lights by night.

Water is supplied by hydrants inside of and at each end of the barns; also by hydrant with watering trough, on a washing platform with grade and with sewerage facilities for carrying waste water away from the platform.

The stalls have stationary hay mangers full width of the stall and 36 inches high for horses, and are provided with loose feed boxes, 18 x 12 inches and six inches deep for grain. In each box stall are loose feed boxes for each end of the manger. The box stalls are constructed with open work in front from four feet above the ground, for convenience for seeing the animals within. Each open stall is provided with a lifting front door 4 feet high, for use during the show of swine and sheep. The dirt floors of the barns are to be maintained smooth, rooled, and covered with not less than three inches of saw dust or tan bark.

A line of guard posts, 4 x 4 is set three feet in the rear of the stall partitions, 15 feet apart—the posts 3 1/2 feet in height with hole three inches from the top and 1 inch guard rope extending east and west is provided with hook and

staple to fasten at each end of each 30 feet section of rope.

The loft of each barn extends from the sides of the barn over the stalls and toward the center of the barn 12 feet. Pulleys with ropes and hooks are provided on either side of each barn for hoisting feed and baggage to the loft which will be used as sleeping quarters for the herdsmen and the storage of the current supply of grain and forage. A stationary ladder leading to the lofts is located on each side at the end of each barn.

Barns are numbered on each end, and each stall is to be numbered with figures not less than four inches in height. Sign boards are placed at each end of each block giving its designation, thus: "East Block," "Central Block."

The grounds are supplied with suitably constructed water closets and lavatories.

Each barn is to be provided with a flag staff 12 feet high at either end, with rope and pulley.

### Live Stock Review Park.

The live stock review park is provided for the purpose of assembling for the close, personal inspection of the press and the public, the horses and cattle as judged, and immediately after the awards in each section have been made. The stock will be conducted directly from the live stock forum as judged, to the review park adjoining, and be ranked in the order of merit as determined by the judge. Every facility will be provided for the press and the public in the review Park to give the animals critical and deliberate examination, to confer with the judge and to determine the respective merits of the entries and complete for publication a detailed review of the work of the judge in the Forum.

**Live Stock Buildings at the  
World's Fair.**

The review park is located near the forum and is enclosed with a woven wire fence four feet high, with a sliding, ten-foot entrance gate at the center of the East side, and a similar gate for exit located opposite, and in the center of the West side of the enclosure.

A roofed platform twelve feet in width is placed entirely across each end of the park, and on each writing tables and chairs are provided for the use of the representatives of the press.

### Baseball Players and Footracers.

Louis J. Krugers, ex-champion long distance racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1.00 bottle. Sold by R. C. Hardwick.

### Died at Sanitarium.

The remains of Miss Jane Perry, who died Tuesday in the Hopkinsville sanitarium, arrived here yesterday morning and were conveyed to the burying ground at Mt. Vernon by House & Son, the funeral directors, where they were interred. Miss Perry had been in the sanitarium for about three years.—Franklin Times.

## The Smart Set,

A Magazine of Cleverness.

Magazines should have a well-defined purpose. Genuine entertainment, amusement and mental recreation are the motives of THE SMART SET, the

### MOST SUCCESSFUL OF MAGAZINES.

Its novels (a complete one in each number) are by the most brilliant authors of both hemispheres.

Its short stories are matchless—clean and full of human interest.

Its poetry covering the entire field of verse—pathos, love, humor, tenderness—is by the most popular poets, men and women, of the day.

Its jokes, witticisms, sketches etc., are admittedly the most mirth-provoking.

### 160 PAGES DELIGHTFUL READING.
